

Previously, when a site was designed, the web designer would be needed to continue updating content as needed; this is no longer the case.

The advent of Content Management software enables you to update your own site content, while leaving the actual design of new pages and facilities to the web designer and developer.

The following table provides an easy way to compare our CMS design packages.

<b>Content Management Design Comparison Table</b>

**Additional Training**

We can provide additional training for the administrators of your new CMS at a cost of £30 per hour.

If you have any questions or, if you need a package tailored to your specific requirements, do not hesitate to [contact us via e-mail](#) or by telephone on 02890 285845.

**Flash**

We can design Flash elements for your site such as animated headers and video clips.

**NOTES:**

- (1) No guarantee of success is given with regard to search engine placement. SEO is a separate ongoing and at times costly process.
- (2) Please refer to our [Hosting Services website page](#), for details of the free first year hosting included with packages.
- (3) Domain cost incorporated in yearly hosting renewal fee while hosting is maintained with Vision IT Services.
